

## **Mission Statement**

*It is the purpose of Wilmington Yearly Meeting as a Christian religious body to develop and maintain a Quaker community of faith centered in this region, which fosters understanding and experience of Christ, the Teacher within, as known directly and through scripture; to share this understanding and experience with young people in our midst, and with others in our communities and the wider community through ministry, service, and active engagement in the world around us, speaking out and cooperating with others as we feel led.*
